How to Play Sudoku

Fill the 9×9 grid so that every row, every column, and every 3×3 box contains the digits 1 through 9 exactly once. You never need to guess. Each puzzle in this pack has been checked so that it has exactly one solution.

Start with a row, column, or box that already has many clues. Look for a cell that has only one possible digit, or a digit that has only one possible place. Write lightly in pencil.

Easy puzzles can be finished with singles only. Medium puzzles may also need pairs or pointing pairs. Solutions are at the back.

Print at 100 percent, or Actual size, so the type stays large. Do not choose Fit to page.
